

Project #3

Line & Shape

Non-Parallel Lines (one part)

Subdivide a groundsheets with non-parallel lines to take control of the variety of shapes created by these lines.

Any type of similar non-parallel line can be used.

You can incorporate black lines on a white ground, white lines on a black ground or a combination of the above

The rhythm in this project can have multiple visual breaks but the shapes created by the grouping of lines must result in tremendous variation of size.

Groundsheet size: 8.5x11 only.

Two Examples:
